1 Rechne aus und trage die Zahlen passend ein.

$$E + E + E = L$$

$$5 + 5 + 5 = 15 \quad L = 15$$

$$S + E = A$$

$$C = A + L - E - E$$

$$S + S + C - A - E = U$$

$$E + U + L - A - A = H$$

$$L - E + L + L + H = M$$

$$N = M - C - C - L - E$$

$$M + H - L - L - C - T = A$$
